

## The Legendary HYALITE ON TARGET 936

*The Legendary **HYALITE ON TARGET 936** is still going strong at age ten. He has done it all and continues to meet new challenges. While out looking for work in the pasture, he still looks and travels the same as he did in pasture at middle age. He has set about every record in our Herd Sire Evaluation Program. His sire groups have topped our sale as often as any herd sire. His daughters have produced our top selling bull as often as any herd sire. His son **R Leader 6964** holds the record of high selling bull in our sale. Leader's sons are*

*also setting records of high selling bulls in sales of other Hereford breeders. **R Landmark 4386** is another son who is making an improvement to the entire breed.*

*936 has set the record of the most sales of semen off the ranch without the aid of AI stud selling for him. He has crossed extremely well with any blood line. He currently has 250 daughters in production and over eleven hundred progeny in 107 registered herds.*
